This form must be submitted to the registrar's office at least 10 business days prior to the form due date. The Club Sport Office cannot sign these eligibility forms.

Transition Requirements

The below requirements must be submitted yearly for an organization to be an active Club Sport. A Club Sport Office member will view the incident reports and follow up with club members if deemed necessary. Injuries that require a trip to the hospital must be communicated to a Club Sport Professional Staff member immediately.

Concussion Policy

A concussion is an injury to the brain which can cause immediate and prolonged deficits and, in extreme cases, death. The 5th International Conference on Concussion in Sport defined concussion as follows: Concussion is a brain injury and is defined as a complex pathophysiological process affecting the brain, induced by biomechanical forces.

Several common features that incorporate clinical, pathologic and biomechanical injury constructs that may be utilized in defining the nature of a concussive head injury include:

- ❖ Concussion may be caused either by a direct blow to the head, face, neck, or elsewhere on the body with an "impulsive" force transmitted to the head.
- ❖ Concussion typically results in the rapid onset of short-lived impairment of neurological function that resolves spontaneously. However, in some cases, symptoms and signs may evolve over a number of minutes to hours.
- ❖ Concussion may result in neuropathological changes, but the acute clinical symptoms reflect a functional disturbance rather than a structural injury and, as such, no abnormality is seen on standard structural neuroimaging studies.

- ❖ Concussion results in a graded set of clinical symptoms and signs that may or may not involve loss of consciousness. Resolution of the clinical and cognitive symptoms typically follows a sequential course. However, it is important to note that in some cases symptoms may be prolonged.

There are many different symptoms associated with concussion. A list of the most reported and acknowledged signs and symptoms is listed below:

- ❖ **Physical-** Headache, Nausea, Vomiting, Balance problems, Fatigue, Sensitivity to light, and noise, Dazed
- ❖ **Cognitive-** Feeling mentally “Foggy”, Feeling slowed down, Difficulty concentrating, Difficulty remembering, Confused about recent events
- ❖ **Emotional-** Irritable, Sad, Nervous, Drowsiness, Sleeping more or less than usual

Concussions can be challenging injuries for student-athletes and healthcare professionals to manage; unlike other injuries the timeline for full recovery is usually difficult to predict. There are potential health risks associated with returning to sport before symptoms have subsided and brain healing has occurred. Proper management of concussions is vital to ensuring full and timely recovery and avoidance of prolonged issues.

The below Clubs are required to have baseline testing for all their athletes. Baseline testing will be conducted by the Club Sport Athletic Trainer.

- ❖ Equestrian
- ❖ Ice Hockey (ACHA M)
- ❖ Ice Hockey (AAU M)
- ❖ Lacrosse (M)
- ❖ Lacrosse (W)
- ❖ Rugby (M)
- ❖ Rugby (W)
- ❖ Quadball
- ❖ Soccer (M)
- ❖ Soccer (W)

For the full concussion policy students should refer to Appendix C.

Sport Specific Safety Requirements

To meet the medical needs of every Club Sport Organization, sports have been placed into risk categories based on the documented history of injuries within the sport. The chart below and definitions should be used to determine what requirements each Club has for an event.

Risk Definitions

High Risk- Activities having a documented history of catastrophic injury. Requires Athletic Trainer/ EMT for practices and competitions.

Medium Risk- Activities having a minimal potential for catastrophic injury. Athletic Trainer/ EMT is not required for practices or scrimmages. A Building Supervisor or Field Supervisor is required for the entirety of the home competition. Home Competition is defined as any scheduled activity/ competition taking place on a Rutgers owned or leased space.

Low Risk- Activities with extremely low possibility of serious injury. Athletic Trainer/ EMT not required for practice or competition.

Any of Sport Clubs may request an Athletic Trainer/EMT at to be present at their event, if it is not deemed necessary by the Sport Club Office, the club can still request an Athletic Trainer/EMT, but the cost for them must come out of their club account.

Contracts

Contracts are a written agreement between an outside entity, organization or individual and a Rutgers Club Sport. Clubs use contracts for league agreements, facility agreements, coaches/ official's agreements, and sponsorship agreements. Students are not permitted to sign any contracts on behalf of the University. All contracts must be reviewed and signed by a member of the Club Sport Office. If a student signs a contract, they are legally responsible for that contact.

League/Association Agreements

League agreements are a contract provided by a national governing body or league that defines the terms for a Club to participate. All league agreements must be written by the league. These agreements are reviewed and signed by a Club Sport Professional Staff member.

Facility Agreements

Facility Agreements are agreements between an off-campus facility and a Club Sport team. The facility will be able to provide a standard contract. This contract will need to be reviewed by the Sport Club Office.

Some facilities will require the Club to submit a certificate of insurance, the Club Sport Office can provide this certificate if you email your advisor.

The facility will need to provide Rutgers with a copy of their certificate of insurance to process and pay any facility contracts.

Coaches/ Officials Agreements

Coaches/ Officials should use the standard Service Payment Form. All coaches will need to be approved on Do Sports Easy and a prior agreement for the semester should be signed listing the terms of the coaching contract. Terms include payment amount, payment schedule and work expectations.

Officials do not need to complete any additional paperwork. They must submit an updated W9 if one is not on file with the Student Activity Business Office.

Sponsorship Agreements

All sponsorships between Clubs and outside businesses or entities must be approved by the Club Sport Office. An agreement that outlines the terms for both parties must be signed. Once the terms have been agreed upon the contract must be signed by a Club Sport Professional Staff member and the business or entity.

All sponsorship agreements will be reviewed by The Office of the General Counsel. Sponsorship agreements must comply with University Trademark, Licensing and Branding policies.

Facility Reservations

All Rutgers Club Sports have access to request facilities for practices, competitions, and meeting spaces within Recreation facilities. Facility availability is balanced between Club Sports, Intramural Sports, group fitness, open recreation, and group reservations.

Facility priority will be given to teams that are in-season, in-good standing or have a facility need.

Practice Schedules

Practice schedules for on campus facilities are determined on a semester basis. Clubs can submit their preferences, but the Club Sport Office will have the final determination on practice schedules. Clubs are responsible for adhering to the Standards of Conduct for Student Organization Policies and Procedures as outlined by Student Affairs. This policy ensures that Student Organizations are accountable for their actions.

Student organizations should embody the values of the University community. Student organizations are responsible for any action committed by their members on behalf of the organization that violates University policy. Disciplinary action against a student organization is separate from action taken against individuals. An incident may necessitate action against both a student organization and individual members of an organization who may have violated University policy.

Administrative Compliance Points

The purpose of the compliance point program is to define, through a tracked point system, how compliant a Club team is with the requirements and expectations of the Club Sport Program. The point system will be used to determine appropriate allocations every academic year based on how many points a Club acquires the previous academic year.

Term

The compliance point program will follow a May- April Term. The points will reset on May 1st of every year. The purpose of this is to allow the incoming officers to begin to comply with requirements and acquire points during the Transition process each year.

Points

Clubs are given a list of requirements and expectations that they must/ can complete, and the assigned point value based on how big of a priority that item is.

Deductions

Some activities or non-compliance can result in point deductions. These deductions are designed to deter activities that increase risk to the Club or participant, not to punish a Club for incidents that are outside of the Clubs control such as an injury.

Classification

To best serve the needs and maximize resources for Club Sport organizations, beginning in the Fall of 2021 Clubs will be classified as either Competitive or Communal.

Competitive Clubs are organizations that travel two or more times per academic year off-campus to compete against other university or college Club teams. The primary purpose of a Competitive Club is to compete as a team or individuals in their Sport. These teams typically require higher levels of funding due to costs associated with travelling and competing such as governing body/ league/ competition fees, officials/referee fees, travel costs, lodging costs, uniforms, and equipment.

Communal Clubs are organizations that travel once or less times per academic year off-campus. The primary purpose of a Communal Club is to learn or experience a Sport with other members of the Rutgers community in a non-competitive or

low-competitive environment. These teams typically require less funding due to the nature of their organization but may still require funding for on-campus programs, equipment, and instructor fees.

Standing

Clubs will be able to acquire points through completing a variety of expectations or activities that are required or expected by the Club Sport Office. Points are then used to determine funding levels. The point system is not used to compare Clubs to each other, but to measure each individual Clubs compliance with the Club Sport Office. There are no limits on the number of Clubs that can be in the top, middle or bottom tiers.
