## **Welcome to Rutgers University!**

Have you ever wondered, “Why recycle?” Of course it’s good for the environment but there is more to it than that. Every day we encounter hundreds of items that can be recycled. By recycling properly we can save tons upon tons of raw materials, which in turn saves time, energy and money. Rutgers is at the forefront in many areas of environmental sustainability. Be part of the solution and help lead Rutgers to a sustainable future by recycling!

### **Did you know?**

- ◆ **The plastic bottle that you are drinking from can become a park bench**
- ◆ **69% of all plastic bottles do not get recycled**
- ◆ **The aluminum can that you are drinking from can save enough energy to power a computer for three hours**
- ◆ **45% of all aluminum cans do not get recycled**
- ◆ **The newspaper you are reading can return to your house tomorrow as a cereal box**
- ◆ **47% of all paper does not get recycled**
