The Resident Assistant in Graduate & Family Housing Job Description

POSITION OVERVIEW

The Resident Assistant (RA) in Graduate & Family Housing is traditionally a graduate student staff member whose primary responsibility is to ensure the safety and student support with their residents in each apartment. The RA is a very important position in Residence Life as it is the front line for the department. RAs develop community, enforce policy and handle crises, as well as foster an independent living environment that is supportive and productive to all groups and individuals at the university regardless of their race, gender, religion, nationality, sexual orientation, or ability. RAs are directly supervised by a member of the graduate hall director or professional staff and are expected to support the mission of the Residence Life Office.

RAs serve as role models on campus, to exhibit the ability to be effective listeners and excellent resources and to show ethical behavior at all times. RAs attend all trainings and meetings designated by the supervisor and are committed to self-development, the development of others, and to the mission and identity of the campus/residential college on which they work. The RA position is a live-in position, and as such RAs are expected to sleep in their own apartment each night. RAs are encouraged to get away one weekend per month.

As Residence Life staff members, RAs are an integral part of the staff team and to participate in the work that supports the development of inclusive and safe apartment communities. To facilitate the development of a staff team, RAs work cooperatively with all staff within the building and the department. Due to the unique nature of the position, the RAs scope of responsibility cannot be translated into hours worked per day or week. Furthermore, RAs are expected to provide support during emergency situations and other unexpected instances where residential staff support is required.
